

Hi, my name is John Doe

I build modern web applications

I'm a passionate frontend developer specializing in creating interactive, user-friendly websites and web apps using React, Next.js, and modern web technologies.

About Me

Who I Am

I am a passionate web developer with over 8 years of experience building engaging and responsive web applications. I love turning complex problems into simple, intuitive solutions.

My journey started with HTML and CSS, and over the years, I have mastered modern JavaScript frameworks like React and Vue. I enjoy collaborating with teams and continuously learning new technologies.

Outside of coding, I enjoy photography, traveling, and exploring the latest trends in technology.

Skills:

JavaScript, TypeScript, React, Next.js, HTML & CSS, Tailwind CSS, Git & GitHub, RESTful APIs

Experience

TechCorp Solutions - Senior Frontend Developer (Aug 2020 - Present)

- Led the development of a modern web application using React and TypeScript.
- Optimized website performance, reducing load times by 30%.
- Mentored junior developers and conducted code reviews.

Innovatech Labs - Frontend Developer (Dec 2018 - Jun 2020)

- Developed responsive UI components using React and styled-components.
- Collaborated with UX designers to improve user experience across multiple products.
- Integrated RESTful APIs and ensured cross-browser compatibility.

CreativeSoft Inc. - Junior Web Developer (Nov 2014 - Dec 2018)

- Maintained and updated company websites using HTML, CSS, and JavaScript.
- Assisted in developing small internal tools to streamline workflow.
- Worked closely with senior developers to implement new features.
